CABERNET SAUVIGNON

MERIDIAN VINEYARDS

Since its founding in 1988, Meridian Vineyards has become synonymous with the California lifestyle and great-tasting, award-winning wines. Meridian Vineyards produces wines that express distinct character. The Meridian Vineyards winemaker is responsible for every step of the winemaking process - from harvest to blending and bottling for our entire line of wines. These wines are made to be easy-drinking and fruit forward with bright acidity. Our wines are perfect for weeknight dinners and casual gatherings with friends.

WINEMAKING AND TASTING NOTES

The Meridian Cabernet Sauvignon is grown throughout select vineyards in sun drenched California. The perfect seasonal growing conditions produce ripe and generous fruit. A portion of the wine is fermented in stainless steel tanks to retain the fresh fruit character of these beautiful grapes. The majority of the wine ferments and is aged for 6 months on seasoned American and French oak to add rich, spicy notes and flavors of vanilla and clove.

Meridian Cabernet Sauvignon opens with aromas of mocha and dark red fruit, which are complemented by spicy oak and a hint of vanilla. A rich mid palate opens to flavors of dark cherry, blackberry, caramel and plum, which continue through to the finish. This wine is smooth and elegant with vibrant approachable fruit flavors that will pair well with a variety of foods.

TECHNICAL INFORMATION

Appellation: California
Alcohol: 13.5%
