BUTTERY CHARDONNAY

MERIDIAN VINEYARDS

Since its founding in 1988, Meridian Vineyards has become synonymous with the California lifestyle and great-tasting, award-winning wines. Meridian Vineyards produces wines that express distinct character. The Meridian Vineyards winemaker is responsible for every step of the winemaking process - from harvest to blending and bottling for our entire line of wines. These wines are made to be easy-drinking and fruit forward with bright acidity. Our wines are perfect for weeknight dinners and casual gatherings with friends.

WINENEMAKING AND TASTING NOTES

More than 50 percent of the Meridian Chardonnay is grown in the coolest regions of Santa Barbara County where classic, sought-after characteristics of vibrant acidity and tropical fruit flavors are typical. The sandy soil keeps yields low and fruit intensity high. A portion of the wine comes from Monterey County, complementing the wine with wonderful tropical fruit flavors. Approximately half of the blend is fermented in stainless steel tanks to retain purity of fruit, while the balance ferments on seasoned French and American oak. This is a classic California Chardonnay with lush tropical fruit flavors enhanced with a wonderful creaminess and a crisp lasting finish.

Our Meridian Buttery Chardonnay showcases the extraordinary quality of some of California's finest vineyards. This wine has a rich, creamy mouth feel with luscious buttery notes and a hint of vanilla with citrus zest that lingers on the finish. Enjoy this wine with shrimp scampi, parmesan encrusted chicken or simply on its own.

TECHNICAL INFORMATION

Appellation: California
Alcohol: 13.5%
